Declaration of Assent for Producers of Blood Plasma or Goods that Contain Products Originating from Pigs with the Exception of Pig Fat

We, the undersigned, hereby confirm that we undertake in Denmark solely to sell feed that contains blood plasma or goods that contain products originating from pigs, with the exception of pig fat, produced and processed in accordance with the production and processing procedures in force at any time laid down by DANISH Product Standard. We confirm that we shall at any time be able to document that production and processing comply with the requirements laid down in DANISH Product Standard. Records documenting correct production and processing shall be kept for two years from the production of the batch in question.

We also confirm that in the event that the above is not observed and in the event that we obtain positive information that errors have occurred during production resulting in failure to observe the specified production form we shall to the extent that this is possible immediately withdraw the product sold by us from the market. All costs related to this product withdrawal shall be paid by us.

We furthermore confirm that a third party certifying body shall at all times be entitled to undertake audit of compliance with the above.

This declaration of assent is aimed at all manufacturers of plasma or goods that contain products originating from pigs with the exception of pig fat in pure form or mixed directly to livestock producers and feedstuff suppliers.
